Re: EchoStar's Petition for Waiver of  
Over the Air Analog Tuner Requirements  
MB Docket No. 13-177

Dear Ms. Dortch:

Ness Electronics is writing to support expeditious grant of the above-referenced petition for waiver (EchoStar Waiver). Ness Electronics, as a retailer in the electronics market is very anxious to have innovative, cost-effective products, like the Channel Master K77 brought to market as soon as possible. Our market studies demonstrate that low cost products that provide consumers with the ability to combine access to broadcast programming with over-the-top and DVR functionalities, such as the Channel Master K77, are needed to satisfy consumer demand. Accordingly, we request the FCC to grant the EchoStar Waiver as soon as possible so that this exciting new product is available in time for the 2013 holiday season.

Sincerely,

Michael Ness  
President
